A Message from the Chairman Desk

In the present period of modernization, intensity and fast changes, where instruction is losing the genuine significance and has become an equivalent word of procuring bread and butter. There is an exceptional need of instructive framework which can furnish most noteworthy level of scholastic greatness with sufficient open doors for mental, physical, enthusiastic and social development of understudies. Career Defence School is such an establishment which is resolved to give current, logical understudies mindful of their boundless shrouded potential.

Career Defence School with its cutting edge, actually propelled youngster focused and eco-friendly infrastructure will prove itself a spot giving opportunity of picking up, making kid energetic and unconstrained to learn. Additionally, with scholarly accomplishment, we similarly emphasize the values, spirituality and uplifting mentality throughout everyday life. At last I might want to offer my thanks to all my staff individuals for their devotion and difficult work, discipline and inventive advancement that has helped in taking the school to more up to date statures.

Last yet not the least, my desires to the Career Defence School, its staff and understudies, all the guardians and each one of those related with their foundation.

*"A dream is not that which you see while sleeping;
it is something that does not let you sleep"*
- Dr. A.P.J. Abdul Kalam

The philosophy of the school is based upon the Statement of Purpose, which provides the fountainhead from which our students' dreams take flight, for it combines a strong belief in service with compassion and an underlying awareness of the greatness of our own culture. Not a dull moment here, this is Career Defence School for you! From balancing the rifle on the shoulder to hitting the target in the archery area, we've mastered the art of juggling elephants. While we celebrate the success of our students in their board examinations, our big numbers of students are accelerating in sports in National and International level. Technology is put to best use here with equipped library and distinguish laboratories at all levels, but, as the vision of the school states, we stay grounded in tradition. We take pride in folding our hands and saying "Namaste" to everyone in school. We truly are a school with a difference who says children dislike boarding school? One would get to see more smiling faces here than anywhere else.

I would like to thank all stakeholders for extending their cooperation and support without which it would not be possible to turn a school into a premier institution. They say that there exists a thin dividing line that separates a good school from a truly great school. I am happy to say that in our preceding years, we are moving steadily along the journey of greatness, and it is a pleasure to be accompanied on this journey by so many wonderful people.
